

ENROLL US!

We Want to Be a Partner in EPA's
National Partnership for Environmental Priorities

IDENTIFYING INFORMATION

Name of Organization: EMCOR Facilities Services, Inc.
Principal Contact: Dave Downey
Authorizing Official: _____
Address: 320 South 23rd Street, Suite 100
Phone/Fax: (703) 769-8208 / (703) 486-7527
EPA RCRA ID Number: _____

Facility Name: multiple facilities in DC metro area
Title: Director of Operations
Title: _____
City/State/Zip: Arlington, VA 22202
Email: ddowney@cesengineers.com
Date: 2/22/06

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Mercury **CASRN:** 7439-97-6

Narrative description of proposed project: We are developing a comprehensive mercury recycling program for the facilities we manage in the Mid-Atlantic Region. The program is aimed at educating our facilities' operators about mercury-containing products and management methods and establishing comprehensive recycling programs for spent mercury-containing lamps, thermostats, and other devices. We will start the program in 11 facilities for 2005/2006 and plan to add 5 to 10 more facilities in 2007.

How we will measure success: _____
The contractor responsible for managing our waste will track pounds of material recycled during the calendar year and provide a report listing the pounds of mercury recycled during calendar years 2006 and 2007.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of _____ pounds in _____ (month/year) to a reduced amount of _____ pounds generated/used by _____ (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- | | |
|---|--|
| <input type="checkbox"/> Equipment or technology modifications. | <input type="checkbox"/> Process or procedure modifications. |
| <input type="checkbox"/> Reformulation or redesign of products. | <input type="checkbox"/> Substitution of less toxic raw materials. |
| <input type="checkbox"/> Improvements in inventory control. | <input type="checkbox"/> Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> Other (describe): _____ | |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical # 1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of 0 pounds in July, 2005 (month/ year) to an increased quantity of 5 pounds by December, 2006 (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- | |
|---|
| <input type="checkbox"/> Direct use/reuse in a process to make a product. |
| <input type="checkbox"/> Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> Using/reusing waste as a substitute for a commercial product. |
| <input checked="" type="checkbox"/> Other (describe): <u>Initiate fluorescent bulb recycling.</u> |

SUPPLEMENTAL GOAL SHEET: NATIONAL PARTNERSHIP FOR ENVIRONMENTAL PRIORITIES

GOAL # 2. **Chemical Name:** Mercury **CASRN:** 7439-97-6
Narrative description of proposed project: See page 1.

How we will measure success: _____
The contractor responsible for managing our waste will track pounds of material recycled during the calendar year and provide a report listing the pounds of mercury recycled during calendar years 2006 and 2007.

1a. Our voluntary **source reduction** goal for Chemical # is to reduce the amount of this chemical generated/used from a baseline amount of _____ pounds in _____ (month/year) to a reduced amount of _____ pounds generated/used by _____ (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):
_____ Equipment or technology modifications. _____ Process or procedure modifications.
_____ Reformulation or redesign of products. _____ Substitution of less toxic raw materials.
_____ Improvements in inventory control. _____ Improvements in maintenance/housekeeping practices.
_____ Other (describe): _____.

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical # 1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of 5 pounds in January, 2007 (month/ year) to an increased quantity of 10 pounds by December, 2007 (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):
_____ Direct use/reuse in a process to make a product.
_____ Processing the waste to recover or regenerate a usable product.
_____ Using/reusing waste as a substitute for a commercial product.
X Other (describe): Initiate fluorescent bulb recycling.

GOAL # _____. **Chemical Name:** _____ **CASRN:** _____
Narrative description of proposed project: _____

How we will measure success: _____

1a. Our voluntary **source reduction** goal for Chemical # is to reduce the amount of this chemical generated/used from a baseline amount of _____ pounds in _____ (month/year) to a reduced amount of _____ pounds generated/used by _____ (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):
_____ Equipment or technology modifications. _____ Process or procedure modifications.
_____ Reformulation or redesign of products. _____ Substitution of less toxic raw materials.
_____ Improvements in inventory control. _____ Improvements in maintenance/housekeeping practices.
_____ Other (describe): _____.

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical # is to increase the recycled or recovered quantity of this chemical from a baseline amount of _____ pounds in _____ (month/ year) to an increased quantity of _____ pounds by _____ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):
_____ Direct use/reuse in a process to make a product.
_____ Processing the waste to recover or regenerate a usable product.
_____ Using/reusing waste as a substitute for a commercial product.
_____ Other (describe): _____.
